The Big Picture

India is laying the groundwork for building the country as an AI powerhouse.

The Union Budget 2025 made allocations across the value chain to build the foundation of a strong AI future. 💪

Why it Matters

- **This is a step toward furthering India's AI Mission, which was announced last week by Electronics and IT Minister Ashwini Vaishnaw.**
- **LLMs and AI made in India will be aligned with global benchmarks, making us a force to reckon with globally in AI.**
