

Economic Survey: Highlights

PEVC EXITS

Stellar Returns Boost India's Investment Appeal

The Big News:

Private equity and venture capital firms have made big exits from investments.

The Headline Number:

PE/VC exits from Indian stocks

- \$19.5 billion from January to September 2024.
- \$18.3 billion from January to September 2023.

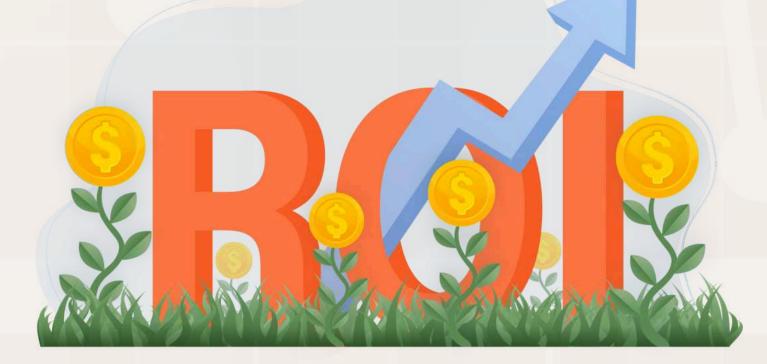

What's Driving It:

- A dynamic stock market
- High investor confidence.
- India's stable macroeconomic environment
- Investor-friendly policies.
- Lucrative returns on investments amidst a challenging global investment landscape.

Why It Matters:

Depth and resilience of the Indian capital market provided lucrative exit opportunities for direct investors

This will encourage investments in the future.
